

STARTUP TEMPLATE LIBRARY · \$29/MONTH

STL All-Access Library

What the membership includes, what arrives each month, and a thirty-day sequence so month one produces a change rather than a download folder.

- Unlimited access to the full template library
- A defined monthly release, with a note on who should bother
- Clear terms on access after cancellation

Startup Template Library · startuptemplatelibrary.com
Version 1.0 · Membership guide — [read this first](#)

What is included

- Unlimited access to every template in the Startup Template Library while the membership is active.
- A defined monthly release: new templates or substantial updates to existing ones.
- Setup notes for each template, so it is adopted rather than downloaded.
- Updates when rates, rules or platforms change.
- Access to the full back catalogue, not just what is released while you are a member.

What is not included

- Customisation of templates to your business.
- Review of your completed documents, or any form of advice on them.
- Legal, financial or tax advice. Templates are starting points, not counsel.
- Resale or redistribution. Templates are licensed for use inside your own business.

Access after cancellation

Access ends when the membership ends. Anything you downloaded while a member stays yours to use in your business; the library and the monthly releases do not continue. Download what you are actively using.

Your first thirty days

Week	What to do
1	Pick the single document you most need this month. Just one.
2	Set it up properly: your details, your terminology, your figures, stored where your team works.
3	Use it for real once, and fix what that exposes.
4	Only now browse the library, and choose next month's one template.

The constraint is adoption, not access

A member who properly adopts one template a month has changed how the business runs within a year. A member who downloads forty in week one typically uses none.

How to get the most from a template

1. Decide where it lives before you open it, and who owns it.
2. Keep an untouched master; work on duplicates.
3. Replace every placeholder, including the ones in the footer.
4. Surface the assumptions — anything with a rate or a percentage in it — and replace them with yours.
5. Link it from wherever work actually happens.
6. Put a review date on anything containing a figure or a regulatory reference.

Terms in plain language

- Billed monthly. Cancel any time; access runs to the end of the paid period.
- Licensed for use within your own business, including on work you do for your own clients, but not for resale as templates.
- Templates carry Startup Template Library branding and are supplied as finished documents.
- Nothing in the library is legal, financial or tax advice. Verify jurisdiction-specific content with your own adviser.
